

Thursday September 14

08:45	<b>Coffee + croissant</b>	
09:00	Cost benefit analysis with agglomeration effects	Mogens Fosgerau
09:45	Commute scheduling with bathtub	Abhishek Ranjan
10:10	<b>Coffee + fruit</b>	
10:40	Equilibrium Dynamics of Household Home and Job Location Decisions	Maria Juul Hansen / Christian Langholz / Bertel Schjerning
11:25	Earnings Process Estimation with Linked Regression Trees: Richer Dynamics, Fewer States	Anders Munk Nielsen
12:10	<b>Lunch + coffee</b>	
13:10	Semiparametric Estimation of Dynamic Discrete Choice Models	Matt Shum
13:55	Structural Estimation of Dynamic Directional Games with Multiple Equilibria	Fedor Iskhakov
14:40	<b>Coffee + fruit</b>	
15:10	TBA	Erik Verhoef
15:55	Estimating Dynamic Economic Models with Fixed Effects	Dennis Kristensen
16:40	<b>Pause</b>	
19:00	<b>Dinner</b>	

Friday September 15

08:45	<b>Coffee + croissant</b>	
09:00	Econometric Methods for Endogenously Sampled Time Series: The Case of Commodity Price Speculation in the Steel Market	John Rust
09:45	Update on the estimation of agglomeration-productivity effect	Jesper Hybel Petersen, Katrine Hjorth / Kibrom Araya Abay
10:30	<b>Coffee + fruit</b>	
11:00	A dynamic structural model for dual-earner households' home and job locations.	Maria Juul Hansen
11:45	Activity based model	Anders Karlstrom
12:30	<b>Lunch + Coffee</b>	
13:30	<b>End</b>
