Organisers

Camille Landais (London School of Economics and CEPR)
Søren Leth-Petersen (University of Copenhagen, CEPI and CEPR)
Johannes Spinnewijn (London School of Economics and CEPR)

Main conference room:

Each presenter has 30 minutes including questions and short discussions. Longer discussions should be deferred to the general discussion or break-out room at the end of each session (see below). All questions during the presentation should be written in the chat. If there are co-authors around then they can answer the questions on the fly in the chat. The session chair can redirect questions from the chat to the presenter. For attendees: Please attend the whole time. Encourage to have camera on. We want this to be an interactive and useful meeting, not a series of presentations running in the background.

Break-out rooms:

After each block there is a 30 minute break. During this break there will be a break-out room for each presenter from the block that just finished. The presenter should always be in that room. 2 minutes before the next block starts the break-out rooms close and people return automatically to the main conference. Please keep the camera and sound open in the break-out room.
